

Gauteng Emergency Medical Services

Provision of Emergency Medical Services in the Public Sector is the competency of the Gauteng Provincial Government. Gauteng EMS falls under program 3 within the Gauteng Dept. of Health.

EMS services includes:

- Operations - Primary calls i.e. attending and providing Emergency Medical Care & Rescue Services to the sick and injured at residential addresses and Accident scenes
Interfacility transfers of patients either as up or down referrals between hospitals and clinics.
Plan Patient Transport between facilities for which are fore planned and pre-booked.
- Special Events - is responsible for all the special operations within the Province including but not limited to provision of Medical Standby for Events, Interprovincial Transfers of Patients, Tactical Medical Assistance during Riots, Volatile Protests and Unrests, Medical Assistance with major disaster incidents and accidents
- Emergency Communications Centre - Historically known as a Call Centre
The ECC receives incoming telephone calls from members of the public in need of medical assistance. Callers make initial contact through the 10 177 emergency telephone number, where the calls are answered by call takers, information captured on the system then Dispatchers will dispatch an Emergency Vehicle to the Call
- Support Services - includes an extensive network of services behind the scenes includes Fleet Management, Radio & Telecommunications, ICT, Supply Chain Management, Human Resources Management, Finance Management.
