

GIS and Related Services

Road Asset Management System (RAMS)

Geoportal to Gauteng Provincial Road Assets and Information

Gauteng Provincial RAMS provides a holistic view of the provincial road network and other related provincial roads assets to support and inform planning and decision making processes. Data includes provincial road network inventory, traffic data, condition data, roughness data as well as structure and surface history

Visit the RAMS portal on https://ms-gis.csir.co.za/jsviewer/rams_gdsst/

For more information, contact Ms Amanda Crowie (Director) on 0836353104 or email amanda.crowie@gauteng.gov.za

Gautrain Management Agency

The Gautrain map portal for Gautrain transport time schedules and commuter information. This is under the auspice of the Gautrain Management Agency www.gautrain.co.za. For more information, contact Mr Jacob Rambuda on 0713714923 or email jacobr@gautrain.co.za

Gauteng Integrated Transport Modelling Centre

An Urban Growth Simulation Platform involving numerical modelling and simulation to study urban growth patterns 30 years into the future. Provides the opportunity for planners and decision-makers to assess the likely impact of major investment decisions such as a proposed mass transit scheme

For more information, contact CD: Freeman Masuku on 0718898306 or email freeman.masuku@gauteng.gov.za or Ms Malebo Ndamase on 0838826033 or email malebo.ndamase@gauteng.gov.za

Transport Information Service

Spatial information, analysis and cartographic output service using GIS technology for information, planning and decision support.

For more information, contact Mr Goke Akinnusi on 0834578950 or email olamigoke.akinnusi@gauteng.gov.za or Thomas Vanner on 0743678382/0840752704 or email thomas.vanner@gauteng.gov.za
